

I'm not robot!

These worksheets provide practice in common calculations involving percents, including changing decimals to and from percents, finding percentages of numbers and finding how many percent a number is of another number. Copyright © 2021 K5 Learning Welcome to our Finding Percentage Worksheets. In this area, we have a selection of percentage worksheets for 5th and 6th grade designed to help children learn and practice finding percentages of numbers. Quicklinks to... Percentages are another area that children can find quite difficult. There are several key areas within percentages which need to be mastered in order. Our selection of percentage worksheets will help you to find percentages of numbers and amounts, as well as working out percentage increases and decreases and converting percentages to fractions or decimals. Key percentage facts: $50\% = 0.5 = \frac{1}{2}$ $25\% = 0.25 = \frac{1}{4}$ $75\% = 0.75 = \frac{3}{4}$ $10\% = 0.1 = \frac{1}{10}$ $1\% = 0.01 = \frac{1}{100}$ This page will help you learn to find the percentage of a given number. There is also a percentage calculator on the page to support you work through practice questions. How to find percentage of numbers support Here you will find a selection of worksheets on percentages designed to help your child understand how to work out percentages of different numbers. The sheets are graded so that the easier ones are at the top. The sheets have been split up into sections as follows: finding simple percentages 1%, 10%, 50% and 100%; finding multiples of 5%; finding any percentage of a number. The percentage worksheets have been designed for children in 5th/6th grade, and all the sheets come with an answer sheet. Our quizzes have been created using Google Forms. At the end of the quiz, you will get the chance to see your results by clicking 'See Score'. This will take you to a new webpage where your results will be shown. You can print a copy of your results from this page, either as a pdf or as a paper copy. For incorrect responses, we have added some helpful learning points to explain which answer was correct and why. We do not collect any personal data from our quizzes, except in the 'First Name' and 'Group/Class' fields which are both optional and only used for teachers to identify students within their educational setting. We also collect the results from the quizzes which we use to help us to develop our resources and give us insight into future resources to create. For more information on the information we collect, please take a look at our Privacy Policy We would be grateful for any feedback on our quizzes, please let us know using our Contact Us link, or use the Facebook Comments form at the bottom of the page. Take a look at some more of our worksheets similar to these. Often when we are studying percentages, we look at them in the context of money. The sheets on this page are all about finding percentages of different amounts of money. Money Percentage Worksheets Once your child is confident finding percentages of a range of numbers, they can start using their knowledge to solve problems involving percentages. The worksheets in this section contain a range of percentage problems set in different contexts. Percentage Word Problems 5th Grade 6th Grade Percent Word Problems Take a look at our How to Work Out Percentage Increase/Decrease page. This page is all about finding the percentage increase or decrease between two numbers. We also have a percentage increase calculator that will work it all out for you at the click of a button. How to Work out the Percentage Increase or Decrease To convert a fraction to a percentage follows on simply from converting a fraction to a decimal. Simply divide the numerator by the denominator to give you the decimal form. Then multiply the result by 100 to change the decimal into a percentage. The printable learning fraction page below contains more support, examples and practice converting fractions to decimals. Converting Fractions to Percentages Convert Percent to Fraction Our online percentage practice zone gives you a chance to practice finding percentages of a range of numbers. You can choose your level of difficulty and test yourself with immediate feedback! Online Percentage Practice How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! How to Print or Save these sheets Need help with printing or saving? Follow these 3 easy steps to get your worksheets printed out perfectly! The Math Salamanders hope you enjoy using these free printable Math worksheets and all our other Math games and resources. We welcome any comments about our site or worksheets on the Facebook comments box at the bottom of every page. Page 2 Welcome to our 2 Digit Multiplication Worksheets page. We have plenty of worksheets on this page to help you practice the skills of multiplying 2-digit numbers by 1 or 2 digits. We have split the worksheets on this page into two sections: 2-digit x 1-digit multiplication (3rd grade) 2-digit x 2-digit multiplication (4th grade) Each section ends with some trickier challenge sheets for more able students. Within each section, the sheets are carefully graded with the easiest sheets first. These sheets are aimed at 3rd graders. Sheets 1 to 4 consists of 15 problems; sheets 5 and 6 consist of 20 problems. Sheets 1 and 2 involve multiplying 2-digit numbers by 2, 3, 4 or 5. Sheets 3 to 6 involve multiplying a 2-digit number by single digit numbers and finding increasing trickier products. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! These sheets are aimed at 4th graders. Sheet 1 involves 2-digit by 2-digit multiplication with smaller numbers and answers up to 1000. Sheets 2 to 4 have harder 2-digit numbers to multiply and answers that are generally larger than 1000. These 2-digit multiplication worksheets have been designed for more able students who need that extra challenge! We have more 2-digit multiplication worksheets, including 2-digit x 3-digit multiplication problems on this page. More Double digit Multiplication Worksheets (harder) Take a look at some more of our worksheets similar to these. Need to create your own long or short multiplication worksheets quickly and easily? Our Multiplication worksheet generator will allow you to create your own custom worksheets to print out, complete with answers. Here you will find a range of Multiplication Worksheets to help you become more fluent and accurate with your tables. Using these sheets will help your child to: learn their multiplication tables up to 10 x 10; understand and use different models of multiplication; solve a range of Multiplication problems. All the free 3rd Grade Math Worksheets in this section are informed by the Elementary Math Benchmarks for 3rd Grade. Here you will find a range of Free Printable Multiplication Games to help kids learn their multiplication facts. Using these games will help your child to learn their multiplication facts to 5x5 or 10x10, and also to develop their memory and strategic thinking skills.
